

Raising Kids in a Connected World

WAIT UNTIL 8TH · PARENT
WORKSHOP
BENJAMIN POIESZ

Do these in order. You don't need to finish everything tonight — start with WiFi, then one device. Check off what's done. Come back for more next week.

① HOME WIFI · ~10 MIN · FREE

- ☐ 1. Open your ISP app: **Xfinity** or **My Verizon**. Enable parental controls.
- ☐ 2. Create a profile per child. Assign their devices.
- ☐ 3. Set a WiFi bedtime per device.
- ☐ 4. Change DNS to OpenDNS FamilyShield:
208.67.222.123 · 208.67.220.123
- ☐ 5. Xfinity DNS is locked — use the app filters instead.

Parental controls FAQs

② CREATE A CHILD ACCOUNT · ~5 MIN

- ☐ 1. **Apple:** Settings → [Your Name] → Family Sharing → Add Member.
- ☐ 2. **Google:** families.google.com or Family Link app.
- ☐ 3. Always use **real birthday** — controls are age-based.
- ☐ 4. Never let them use your account, or an adult-age account.

③ FIRST DEVICE · PICK ONE

- ☐ • **Apple Watch Family Setup** (ages 8–12) — calls, texts, location. No browser, no apps.
- ☐ • **iPad (Wi-Fi only)** — safest first screen device.
- ☐ • **iPhone, locked down** (ages 10–14) — Screen Time below.

④ SCREEN TIME SETUP · ~10 MIN

- ☐ 1. Enable **Downtime** — bedtime & school hours.
- ☐ 2. Turn on **Communication Limits** → contacts only.
- ☐ 3. **Content & Privacy** → Limit Adult Websites.
- ☐ 4. Add sites to **Never Allow:** [tiktok.com](https://www.tiktok.com) , [instagram.com](https://www.instagram.com) , [snapchat.com](https://www.snapchat.com) .
- ☐ 5. Set a **Screen Time passcode** they do not know.

⑤ FAMILY COMPUTER · ~5 MIN

- ☐ 1. On Mac: **System Settings** → **Screen Time**. Controls sync from iPhone.
- ☐ 2. Create a **Standard** user account — not Admin.
- ☐ 3. Set a Screen Time passcode they do not know.

⑥ TALK WITH YOUR KIDS

- ☐ • Tell them what you set up — and why.
- ☐ • Agree on tech-free zones (meals, bedroom, car).
- ☐ • Loosen one rule at a time as trust grows.
